Become a Merchant Navy Officer

Why Marine Engineer ?

“ Shipping Companies will require an additional 42,500 officers by the end of 2019 to cope with the expected growth in the main cargo carrying fleet, equivalent to 7% growth over the five year period. But the persistent shortage of marine crew is receding, according to the latest Manning report published by Global Shipping Consultancy Drewry. Current officer supply is in the order of 615,000 and there is a nominal shortfall of approximately 15,000 officers, which is expected to remain the case until 2019. ”
